

Descriptive names of military units in the *Compilation 'notitia dignitatum'*

The following is a list of all the words used for the names of military units in the *Cnd*, excepting all words denoting unit categories (*ala*, *auxilia /auxiliares /auxilium*, *classis*, *cohors*, *comitatenses*, *cuneus*, *equites*, *gentiles*, *gens*, *laeti*, *legio*, *limitanei*, *milites*, *numerus*, *schola*, *vexillatio*); all ordinals (*primus/a/um*, etc.), but not words derived from any ordinal numbers in the names of parent units (*primani*, *secundani*, etc) and all comparative distinctions (*seniores*, *iuniores*), unless two of these otherwise excepted words comprise the complete name of a unit (such as for the unit *comites seniores*, for which the word *comites* is listed below).

Words derived from proper names (places, nations or tribes, emperors, commanders, deities) are written with an initial capital letter; the remaining words denote either an attribute of a unit (such as *victrix*) or a function (such as *exploratores*) or a method of creation (such as *gemina*) or its armament (such as *sagittarii*) or its size (such as *miliarensis*).

The types of units are indicated by the following abbreviations:
